

# Refrigerated Transport Boxes

## DSD-60D Features

### Product Features

- DSD-60D is a refrigerated mobile transport box for easy & safe transfer of temperature sensitive biological products.
- The wide temperature setting range supports requirement of different products. The display & alarm system control helps in continuous monitoring of temperature.
- Versatile Power Options: With both a 240V AC power cord and a 12V DC adapter, this portable fridge ensures you have the flexibility to power up in various settings. Perfect for indoor/outdoor.
- Add-On Battery Option: Take your convenience a step further with the optional add-on battery, providing an extra power source for extended cooling during your travels. Enjoy the flexibility to go off-grid without compromising on refrigeration.

Dimensions (WxDxH mm /inch)	723x360x545 mm, 29x14x22 inch
Capacity	56.5 Liters
Temperature Range	+20°C to -20°C
Refrigerant	R134a
Voltage	AC100-240V DC:12/24v
Item Weight	17.8 Kg
